UBAID UR RAHMAN

Information Technology Graduate | Network Security & Anomaly Detection | Master's Scholarship Applicant
Muzaffargarh, Pakistan | ubaidmalikvk@gmail.com | Nationality: Pakistani

PROFESSIONAL SUMMARY

IT graduate (BS, CGPA 3.30/4.00) focused on network security and IPv6 threat detection. Built a Python-based IPv6 security toolkit as a final-year project and received an A+. Currently works as a NOC Engineer, keeping networks available 24/7. Former Computer Networks Teaching Assistant, full-tuition merit scholar and $(ISC)^2$ Certified in Cybersecurity. Looking for a fully funded Master's scholarship in Cybersecurity or Intelligent Networks to work on AI-driven defence for next-generation networks.

RESEARCH INTERESTS

- **Intelligent Networks:** AI-assisted traffic monitoring and predictive analytics for early anomaly detection.
- **Cyber Defence:** IPv6 attack mitigation (RA spoofing, tunnelling exploits) and automated threat hunting.
- **Network Intrusion Detection:** Machine-learning methods for spotting malicious traffic and zero-day attack patterns.
- **Core Infrastructure:** Next-generation enterprise network architectures and advanced routing (OSPF, EIGRP).
- **Digital Forensics & Incident Response:** Packet-level forensics and automated evidence collection for threat attribution.
- **Network Modelling:** Graph theory for complex topologies, multipath optimisation and traffic path analysis.

EDUCATION

Bachelor of Science (BS) in Information Technology **2021 – 2025**
University of Gujrat, Hafiz Hayat Campus, Gujrat, Pakistan | CGPA 3.30/4.00 (aggregate 73.75%) | 130 credit hours
Relevant coursework:

- Computer Networks (Theory & Lab)
- Cyber Security
- Information Security
- Operating Systems (Theory & Lab)
- IT Infrastructure
- Virtual Systems & Services (Theory & Lab)
- System & Network Administration
- Artificial Intelligence
- Data Mining
- Database Systems
- Modeling & Simulations
- Probability & Statistics

Academic highlights: Semester GPA improved from 2.79 (Fall 2021) to 3.63 (Fall 2024) and 3.68 (Spring 2025). Earned A or A+ in Computer Networks, Operating Systems, Database Systems, Cyber Security, Data Mining and AI.

RESEARCH & ACADEMIC PROJECT

Final Year Project: IPv6 Security Toolkit (Graded A+) **2024 – 2025**
University of Gujrat | Tools: Python, Scapy, GNS3, Wireshark, Kali Linux, Xubuntu

- Built a Python toolkit that detects automated attack frameworks on IPv6 networks and responds adaptively, using Scapy for live packet capture and inspection.
- Designed GNS3 lab topologies simulating Router Advertisement spoofing, fragmentation-based attacks and tunnel injection to test the detection logic.
- Added audio and email alerts plus JSON and PCAP export for post-incident analysis in Wireshark; tested and verified mitigation on Kali Linux and Xubuntu.

PROFESSIONAL EXPERIENCE

NOC Engineer **Present**
Brain Telecommunication, Lahore, Pakistan

- Monitor live system alerts and diagnose faults to keep the network available around the clock.
- Troubleshoot routing issues and escalate complex incidents to senior engineers following set procedures.
- Keep incident records up to date in line with Service Level Agreement (SLA) requirements.

Teaching Assistant, Computer Networks **Sep 2024 – Feb 2025**
University of Gujrat, Gujrat, Pakistan

- Assisted in lab sessions for introductory and intermediate networking courses.
- Guided students in designing multi-subnet enterprise networks in Cisco Packet Tracer.
- Created hands-on troubleshooting exercises to build practical networking skills.

IT & Network Specialist (Intern) **Jun 2023 – Sep 2023**
University of Gujrat, Gujrat, Pakistan

- Monitored multi-tier campus network nodes to catch anomalies early and limit downtime.
- Applied security updates and patches on Windows and Linux servers.
- Kept inventory logs and documented technical procedures.

SCHOLARSHIPS & ACADEMIC RECOGNITION

Benazir Undergraduate Scholarship Program (BUSP), Batch III **Jan 2023**

- Won a competitive national merit- and need-based scholarship covering full tuition for the BS IT degree.

Academic Excellence & Merit Scholarship, Punjab Educational Endowment Fund (PEEF) **2017**

- Selected for merit-based financial support in recognition of academic excellence.

CERTIFICATIONS

Microsoft Azure AI Fundamentals (AI-900) **Dec 2025**
Core AI concepts: machine learning, computer vision and natural language processing on Azure.

Certified in Cybersecurity (CC), (ISC)² **Sep 2025**
Network defence principles, access control and incident response.

Introduction to Cybersecurity, Cisco **Jun 2025**
Threat landscape, attack vectors and countermeasures.

Cisco Network Administration Certificate, NAVTTC **Feb 2025 – Jun 2025**
OSPF, EIGRP, ACLs and scalable network design.

Machine Learning with Python, IBM **Nov 2024**
Supervised and unsupervised learning and predictive modelling with Scikit-learn, Pandas and Matplotlib.

TECHNICAL SKILLS

Networking: Cisco routing and switching (OSPF, EIGRP, ACLs); multi-subnet design; GNS3; Packet Tracer.
Security: Wireshark and Scapy packet analysis; Kali Linux; IPv6 attack detection and mitigation; incident response.
Programming & Data: Python; Scapy-based packet capture; JSON and PCAP forensic export pipelines.
Systems & Operations: Windows and Linux server administration; patching; NOC monitoring; SLA incident tracking.
Teaching & Communication: Lab instruction, student mentoring, technical documentation, escalation reporting.

CORE COMPETENCIES

- **Network Security:** IPv6 threat detection, packet analysis and incident response in lab and live environments.
- **Network Operations:** 24/7 monitoring, routing troubleshooting and SLA-driven incident tracking.
- **Research & Development:** Designing, testing and documenting security tools from concept to validation.
- **Communication & Mentoring:** Explaining technical ideas clearly, guiding students and escalating issues.

CONFERENCES & SEMINARS

7th International Conference on Advancements in Computational Sciences **10 Feb 2026**
The University of Lahore, Lahore, Pakistan

3rd International Conference on Energy, Power, Environment, Control and Computing **19 Feb 2025**
ICEPECC-2025, University of Gujrat, Gujrat, Pakistan

Seminar on Machine Learning
Organised by PU ORIC, University of the Punjab, Lahore, Pakistan

LANGUAGES

Urdu: Native | **English:** Professional working proficiency; strong written and verbal communication
